3 Introduction

This Scenario does not contain any BO entities.

This is because Performer Suite does not currently support authorization objects for BO.

However, you can find here the rights that a SAP BO user needs to work with the Performer Suite.

3.1 Rights for Synchronization

This chapter contains the rights required for synchronizing SAP BO entities in the Performer Suite. In the following, the rights are presented in subchapters for each entity type.

3.1.1 General

View Objects on Root Folder

Additional:

View Objects on each folder down the folder hierarchy, that should be visible (similar to BI Launchpad)

3.1.2 Universes

View Objects on Universes

Additional:

View Objects on all folder in the folder path of the Universe (otherwise the path cannot be displayed within the Performer Suite).

3.1.3 WebI Reports

View Objects on Web Intelligence Documents

3.1.4 Design Studio Reports

View Objects on Design Studio Applications

3.1.5 Analysis for Office Workbooks

View Objects on Analysis for Office Workbooks

3.1.6 Lumira 2.x Documents

View Objects on Lumira Documents

3.2 Rights for Documentation and Analysis

In this chapter you will find the rights required for documentation and analysis (e.g. display of the tree structure) of SAP BO entities in the Performer Suite.

In the following, the rights are presented in subchapters for each object type.

3.2.1 Universes

View Objects on Universes

Create and Edit Queries Based on Universe and

View Objects on underlying connection (for displaying universe structure in documentation)

3.2.2 Web Reports

View Objects on Web Intelligence Documents

View Objects on underlying connection (for displaying Query Name (for BEx; System Connection))

View SQL on Web Intelligence Documents (for Query Script and Where-Used Information)

3.2.3 Design Studio Reports

View Objects on Design Studio Applications

3.2.4 Analysis for Office Workbooks

View Objects on Analysis for Office Workbooks

3.2.5 Lumira 2.x Documents

View Objects on Lumira Documents
